Seikagaku Announces Changes in the Organization and Personnel

Seikagaku Corporation (Tokyo) hereby announces changes in the organization and personnel decided at a meeting of the Board of Directors held on January 11, 2013, as described below.

1. Date of the changes: April 1, 2013

2. Change in the organization (creation of CMC Laboratories)

Seikagaku will create the CMC* Laboratories within the R&D Division to ensure efficiency and high quality in the development process by accurately conducting the design and manufacture of active pharmaceutical ingredients and investigational drugs in the development stage. By clearly defining responsibility and authority based on the consolidation of CMC-related operations previously carried out by research and manufacturing organizations, the Company will establish a system to speed up new drug development through greater operational specialization and also make possible the smooth transfer of technology to manufacturing organizations in preparation for commercial production.

*CMC is an abbreviation for Chemistry, Manufacturing and Control, the fusion of active pharmaceutical ingredient process research, drug formulation development research and quality evaluation research.

3. Change in personnel

New title	Name	Current title
General Manager, CMC Laboratories, R&D Division	Yutaka Koyama	Section Manager Takahagi Plant and Manufacturing Technology Section
